

Pluck's Cultivators

PMC CULTIVATORS

3-point Linkage Mounted Cultivators

This brochure covers our tractor mounted range of cultivators

Optimised, robust and versatile cultivation system

Pluck's cultivators are designed and manufactured to the highest quality standards to give years of reliable service, and are backed by Manufacturer's Warranty

Versatile cultivation multi-tool;

Our PMC Cultivator is a robust tractor mounted cultivator that can be configured specifically to your needs.

The 4" heavy-duty universal frame is sized precisely for your application and mounted with the ideal suite of tools for the job. With a versatile range of cultivation tools and configuration options the job can be done just the way you want it.

Available tools can include;

- Morris 400lb auto-reset trip assemblies (shown in photo)
- 25x25 coil tines
- McKay spiked chisel points and penetrator sweeps
- Heavy duty chisel and subsoiler legs
- Crumbler and packing rollers
- Finger-tine harrows and rakes

Features of our MTD Cultivator;

- Cat 2 tractor linkage attachment
- Universal heavy-duty 4" double-rail tool bar – up to 3.6m cultivation width
- Cultivation tools optimised for type, quantity and spacing
- Robust quality steel construction
- Quality industrial enamel paint finish
- Optional hydraulic wing extensions to increase cultivation width
- Optional wheel attachments to improve stability

Benefits of the Pluck's design;

- Customised tractor mounted cultivation multi-tool
- Designed for New Zealand farm conditions
- Optimised frame width and tool configuration for your application
- Versatile range of robust tools available, specialising in Canadian Morris gear
- High stability design for precise and even cultivation
- Expertly fabricated and welded to the highest standards (AS/NZS 2980)
- Strong, tough and built to last

Customised trailing cultivators are also available
